

Plasvacc manufactures and distributes high quality blood plasma products used to supplement the immune response system in animals. Plasma therapy shortens the course of treatments, reduces hospitalization periods and lessens the quantity of drugs required to treat a variety of medical conditions.

Equiplas is used to supplement the immune system of horses and is a highly effective treatment for Failure of Passive Transfer (FPT) and Partial Failure of Passive Transfer (PFPT) in foals. Equiplas can also be used to great effect as a supportive therapy for a range of conditions such as diarrhea, colitis, renal conditions, and other active infections.

This product must be recommended by or administered by your veterinarian.
For the convenience of Western Canadian veterinarians, **Moore and Company Veterinary Services** is now a distributor for Plasvacc. **For more information, or to order product, please contact the Moore and Company Pharmacy at (403) 226-2595.**
